Ritveak Dugar
Software Engineer

I am a curious tech enthusiast who strives to learn and work on new skillsets. I love coding and developing new programs. Debugging and troubleshooting are the two things I am really good at.

Internshala
ISP 10 - Campus Ambassador

08/2018 – 10/2018   *Vellore, India*

PROJECTS

WordZone (2020)
- A project based on NLP which includes many word related features like antonyms, synonyms, hypernymns, rhyming words etc along with tools like crossword helper, scrabble helper and rhymer dictionary. Making use of all these features, user adds in a lot of data which trains a model to give each user a personalised new word for learning according to their usage.

React Native App (2020)
- I made cross platform apps (ie, for Android and ios) whileI was working in IDOS.

Powerapps (2019)
- I developed 3 real world powerapp projects as an intern during my internship at Schlumberger.

Rhymer Dictionary (2019)
- User can find a rhyming word to a given word with a specific meaning.

Websites (2017 – Present)
- I have hosted 3 websites as part of internship and freelancing.

EDUCATION

Btech
Vellore Institute of Technology

06/2016 – Present   *Vellore, India*

XII - CBSE
Vidya Vihar Residential School

2014 – 2016   *Purnea, India*
